Flipgrid is the leading video discussion platform used by millions of PreK to PhD educators, students, families, and organizations in more than 150 countries! Create a Grid (that's your classroom or group), add Topics to spark the discussion, and your community builds a dialogue as they share short video responses. Super simple. Super powerful. Endless uses.

"Using Flipgrid isn't about recording videos ... it's about learning. Learning that is social, personal, can happen anywhere anytime, about making connections, it's deep exploration, and promotes that everyone is a teacher and everyone is a learner."

- Sean Fahey & Karly Moura in The Educator's Guide to Flipgrid, Version 3.0
